

Fellow BWIII Owners - Just a reminder to use caution when turning your water on after this cold weather spell. Make sure to check all rooms. We have had some units find leaks in their washer lines (the water line that is in the wall, not the hoses). Thankfully, there has only been minor damage.

We would also like to point out that there is no heat register in the laundry room, so please keep the door to the laundry room open. Also, your thermostat must be set at a minimum of 55 degrees.

Thank you for your diligence!

Your Bay Watch III Board of Directors
